

Company Profile

DALLOU FOR TRADE &
CONTRACTING CO. LTD

Company Profile

Overview

Long before the concept of sustainability came to the forefront of corporate consciousness, the Dallou Group has been a pioneer in reducing its impact on the environment while conserving resources through continuous development and seeking to ensure economic development by considering strategies that do not cause environmental impacts or reduce the quality of life of people in the community.

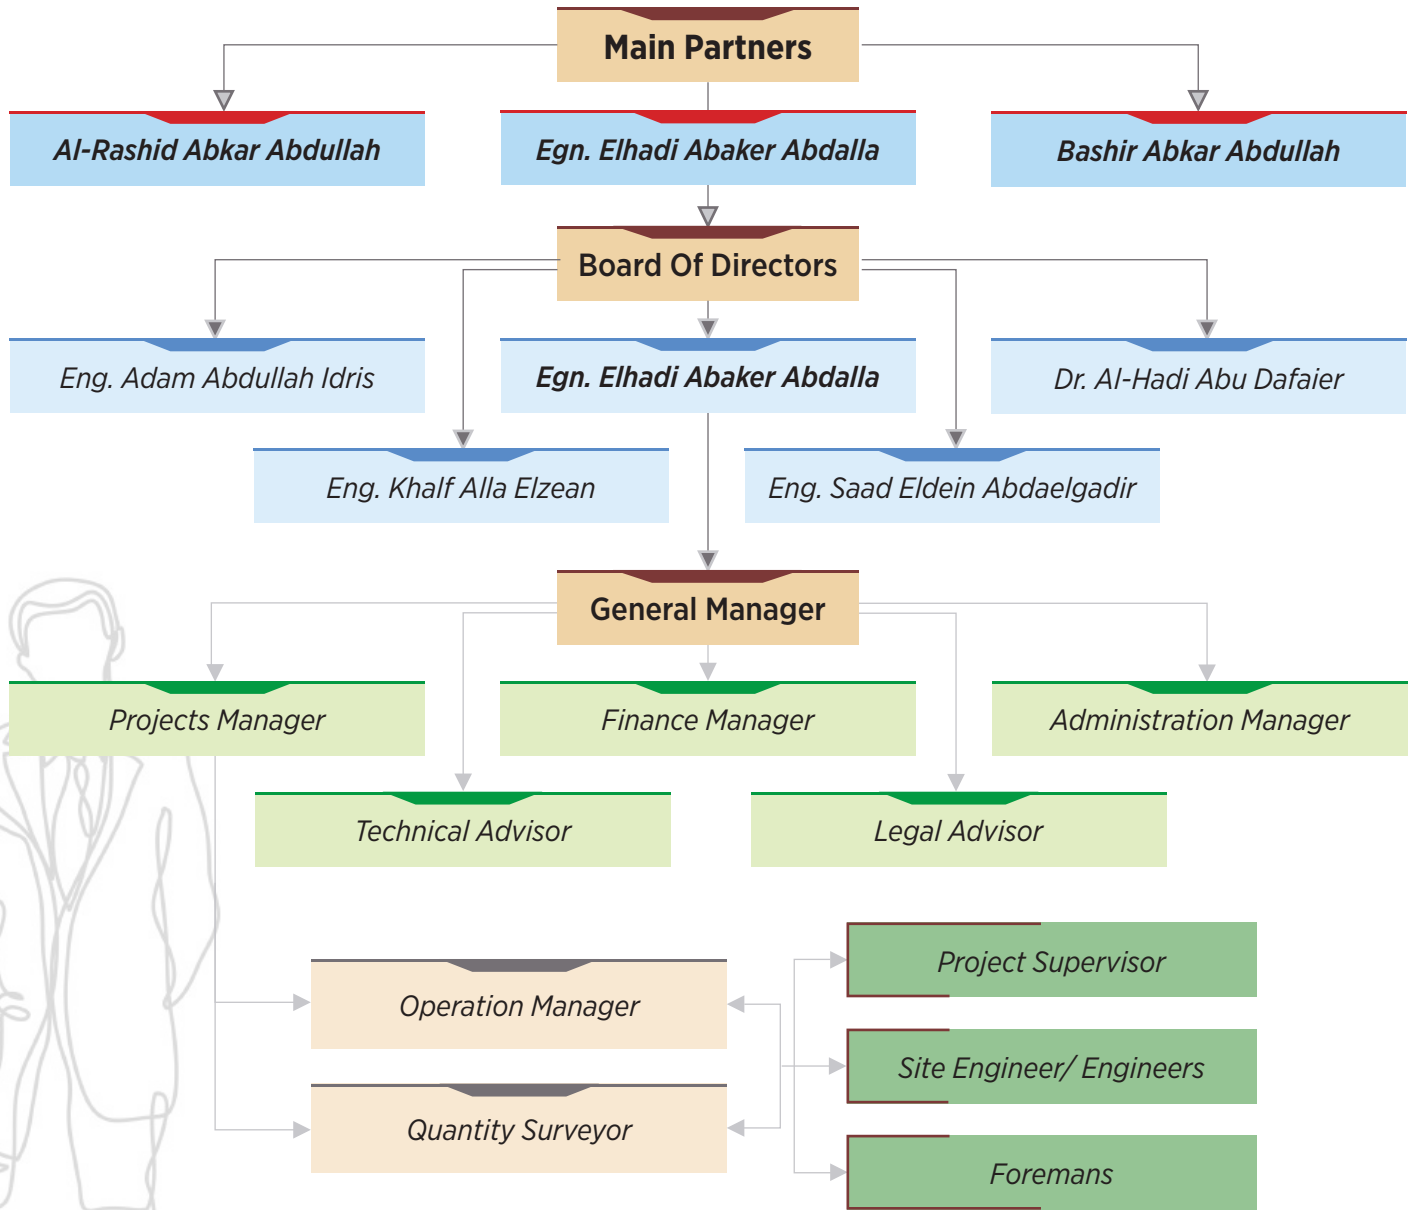

What started as a pioneering concept years ago continues today because sustainability is an integral part of the Dallou Group's values, the Group's commitment to the highest standards of ethical engineering and business conduct and consistent practices to meet the needs of society today.

Over the next few years, the Dallou Group will continue to build on its pioneering progress. In addition, keeping pace with and taking into account global changes.

Daloo Group has proven over the years that it is characterized by a spirit of competition, innovation and achieving goals. We will continue to demonstrate this principle through our actions reflected through engineering, construction, commercial and agricultural activity.

Eng. Elhadi Abaker Abdalla Osman
Chairman

DTC Chart

Company Profile

Preview

Dallou for Trade and Contracting Co. Ltd. (DTC) is a private company incorporated in accordance with Sudanese companies act of the year 1925. DTC registration was completed on 2003/1/27. under Registration No. 19677 as a restructuring and development to the business name (Dallou Enterprises).

DTC is purposely incorporated as ambitious in initiative by its shareholders to make positive and effective interventions in various fields of economic and social development.

Unlike other national contracting companies, DTC is planned and organized in such a way that it enables the company to utilize all up-to-date techniques and technologies in all parts of its various operations to guarantee the utmost level of service perfection to all customers.

Mission

Our mission is to provide value to our clients by providing engineering, construction, infrastructure, industrial, and water project management services. We consider empowering our human resources essential to building a permanent knowledge base. We are committed to the safety of our employees, the development of the countries in which we operate, the well-being of those communities, and the care of the environment.

Vision

To be a leading company in the field of engineering and construction in terms of work style, technology, and human resources competencies.

Values

- Commitment to the safety of individuals, concern for the environment, and community development.
- Human resource development and knowledge building.
- Transparency and professionalism in management.
- Focus on operations and predictability.

Company Profile
